About Me

El mahdi ben mekki, 21 years old, I am an enthusiastic and self-motivated Full Stack Web Developer with a solid foundation in web development principles and a passion for coding. Recently graduated with a degree in Computer Science, I have honed my skills in both front-end and back-end technologies through various academic projects and self-initiated learning.

I am proficient in HTML, CSS, JavaScript, React, Node.js, and Python, among other technologies. My experience includes building responsive websites, developing dynamic web applications, and working with databases to manage and retrieve data efficiently. I am dedicated to writing clean, maintainable code and am always eager to learn and adopt new technologies.

Throughout my academic journey, I have successfully completed several projects that demonstrate my ability to design, develop, and deploy web applications. I thrive in collaborative environments and am committed to continuous learning and improvement.

As I embark on my professional career, I am excited to bring my enthusiasm for web development and problem-solving skills to a dynamic team. I am eager to contribute to innovative projects, gain hands-on experience, and grow as a developer. My goal is to create impactful, user-centric web applications that solve real-world problems and enhance user experiences.

Education History

Bachelor in Computer Science

Institution: Ecole Normale Supérieure Meknès

Year of Graduation: 2024

Relevant Skills

Front-End:

- HTML5, CSS3, JavaScript
- React.js, Angular, Vue.js
- Bootstrap, Tailwind CSS
- Responsive Design, Cross-Browser Compatibility

Back-End:

- Node.js, Express.js
- Python, Django, Flask
- PHP, Laravel
- RESTful APIs, GraphQL

Database:

- MySQL, PostgreSQL
- MongoDB, Firebase

Tools & Platforms:

- Git, GitHub, GitLab
- Docker, Kubernetes
- AWS, Heroku, Netlify
- Jenkins, CI/CD

Others:

- Agile/Scrum Methodology
- Unit Testing, Integration Testing
- TDD, BDD

Projects

Portfolio Website

- Created a personal portfolio website using HTML, CSS, and JavaScript.
- Showcased projects and skills, with a responsive design for mobile compatibility.
- Deployed on Netlify for easy access and management.

E-commerce Platform

- Developed a fully functional e-commerce platform using React, Node.js, and MongoDB.
- Implemented features such as user authentication, product management, and payment processing.
- Deployed the application on AWS, ensuring scalability and reliability.

Bibliothèque - Online Library Management System

Description: Developed an online library management system to streamline book management and borrowing processes.

E-learning Platform

Description: Developed an E-learning platform to facilitate online education and training, providing a seamless and interactive learning experience for users.
